## **RANDY SAYS**

My students loved this activity and they were very engaged. I loved the little preparation involved in utilizing this activity, it took no time at all to get it started. This was an excellent morning work and week before break activity that was very impactful in every way. It proved very handy in at a moments notice.

## **APRIL SAYS**

Great resource with awesome and useful posters/anchor charts. My students also enjoyed the activities used in the unit to practice nouns and verbs.
